To all:

I am David Anton. I brought all the whistleblowers forward regarding Hunters Point. I am looking into Treasure Island, the fake and improper "clean-up" of the site, as well as the health and personal impact upon people. I would like to meet you and talk with you about the Treasure Island "clean up", if we can call it that. I would also like to talk with you about the health impacts that the contamination may have contributed to for you, your family members, friends and neighbors.

I am going to be at the Treasure Island ARACELY CAFE at 401 13th Street near E Avenue on this Sunday, tomorrow, beginning at 1 pm. I would like to meet you and anyone else you think should come and talk with me.

If you can bring any information about the names, telephone numbers and email addresses of any other people you believe I should talk to about the Treasure Island contamination and "clean-up", I would appreciate it if you were able to bring that on paper or send it to me back in an email.

I look forward to seeing you, and those you ask to come, tomorrow at 1 pm at Aracely Cafe. I will be there for a few hours. I believe it closes at 3 pm.

David Anton
